--------------	----------

geom_landr	<i>This geom adds land polygons from OpenStreetMap to ggplot2 maps.</i>
------------	---

Description

This geom adds land polygons from OpenStreetMap to ggplot2 maps.

Usage

```
geom_landr(after = 0, simplified = FALSE)
```

Arguments

`simplified` return simplified polygons.
`after` index of the layer after which the land polygons should be added. Set to 0 to add at the bottom.

`get_land_polygons` *Load land polygons from OpenStreetMap.*

Description

Load land polygons from OpenStreetMap.

Usage

```
get_land_polygons(simplified = FALSE)
```

Arguments

`simplified` return simplified polygons.

`landr` *Add land polygons to ggplot2 maps*

Description

This package adds land polygons from OpenStreetMap to ggplot2 maps.
